## Get the Toolkit - Get the Team

#### SautinSoft's Component Philosophy

Our component philosophy comes down to four elements: speed, flexibility, familiarity, and a small footprint. With extensibility built into every control and platform, our products are engineered and built for maximum performance.

#### Over 20 Years of Experience

Our product team has the expertise and product knowledge to anticipate your growing development needs. We have over 20 years of experience in creating file format components, especially with PDF, DOCX, RTF and HTML.

#### Intuitive API

We create components with simple and intuitive API. Our components help you to Create, Edit, Convert and Export documents in most popular formats. See our [Knowledge Base](#) to get the ball rolling!

#### Exceptional Support

SautinSoft offers the industry's best support with 24-hour personalized assistance and extensive online learning resources, including knowledge base articles, videos, demos. Get started with our controls in minutes.

P.S. Do you want to help us become better?

Help with a code example and get a well-deserved discount on the product.
