Use the intelligent “looks like” search capability to quickly find content, like phone numbers, email addresses and Social Security numbers, via an alphanumeric pattern rather than text. Automatically highlight, cross-out, or underline search results for faster, easier editing.

PROTECT YOUR DOCUMENTS

Control viewing, printing and modifications by adding passwords with secure encryption and permission controls to PDF documents. Or flatten everything in a document, including signatures, stamps, mark-ups, annotations, and filled form fields to ensure enhanced security.
